

NJPNi Summer Internship Application Form (Edited 9-14-2017)

NJPNi offers special summer internships. We receive applications until 12/31 of the preceding year, and then start interviews after January 1st of the year of the internship. We typically have ten or more applicants. Selection is based on academic performance, prior experience, and interest in the neurosciences. Summer interns are expected to work 8 weeks, 40 hours a week. Our summer interns are paid monthly (at the end of each 4 week period). Interns **MUST** complete an abstract summarizing their summer research work, must complete a manuscript that must be submitted for publication and must complete an exit interview in order to receive final payment and a letter of recommendation. All hospital requirements must be met prior to May 1st in order to start. Each intern will be assigned a mentor who will be writing their letter of recommendation and supervising their summer research project.
